

RWD3003-S

Rotating cleaning nozzle

Surface technology: effective and powerful

The RWD3003-S is the ideal attachment tool for our spray lances SL2000 and SL2800. The high area output is realized by an optimized spray pattern and variable nozzle assembly. It is particularly suitable to remove paint and concrete, to expose reinforcements, descaling and rust removal.

- Aluminum housing
- Magnetic brake
- Recessed nozzle installation, optional with deflector plate

- even more working width
- even more aggressive in removal
- even more reliable in run-up
- even more easy service
- even more universal in use
- even more convenient in maintenance

Technical data	RWD3003-S
Operating pressure max.	3000 bar
Recommended flow rate	10 - 30 l/min
Speed adjustable	500 - 2000 min ⁻¹
Nozzle assembly	6-beam
Dimensions	Length = 190 mm Ø = 88 mm
Weight	1.7 kg
<small>1 bar = 14.5038 psi, 1 l/min = 0.26417 USGPM, 1 kW = 1.3410 HP, 1 mm = 0.03937 inch, 1 kg = 2.205 lbs</small>	

High Pressure Technology
